**Tiger Shark Studios: November / December 2012**

WOW what a month. We've had our best month ever seeing sales triple on what we did this time last. **Thank you** to our loyal fans and customers. As a Christmas special all assets sold will get an asset free as well. This offer will be effective until February 1st 2013. Grab it while the offers lasts.

We also hit 10000 visits. AWESOME !!! that is amazing that so many have come to us and have supported us. We also got a number 1 and 2 placing in the Unity assets store for our Beam turret and Micro Towers.

In this newsletter we high light two newly released assets. The Raptor sports car and the Government Building. We also have more images from these assets.

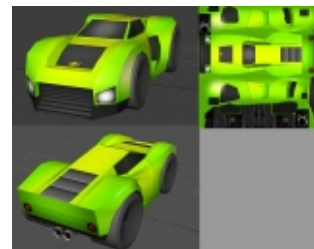

#### **Next Scheduled Asset Pack Releases:-**

- New Themed car packs.
- AGS Bike Pack 2: Exciting new bike assets based on classic anime designs
- Omicron Theta Battle Force: This amazing battle force comes with Carriers, air support and ground units. They bring total annihilation to a RTS game.
- Cute Kittens: What can we say; they are cute, cuddly and full of fun. Perfect fit for any social sim or character based game.

I also want to personally thank you all for submitting data in the survey. It really has been enlightening. That data is providing us with plenty of ideas and scope that will help us create more exciting assets and merchandise.

I want to wish you all with a very Merry Christmas and a Happy, peaceful New Year.

#### **The Raptor.**

**Government / Office Building**

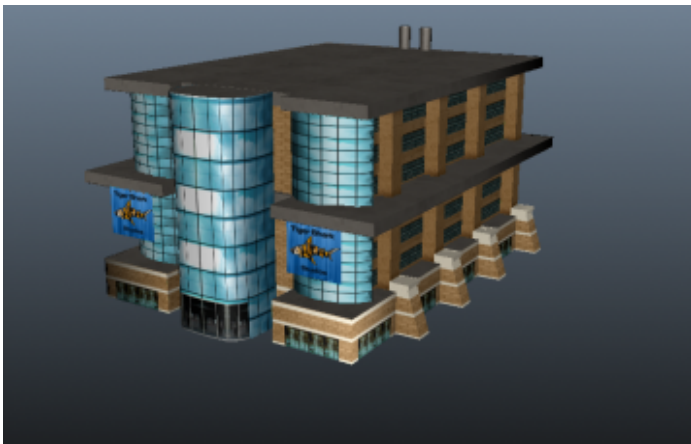

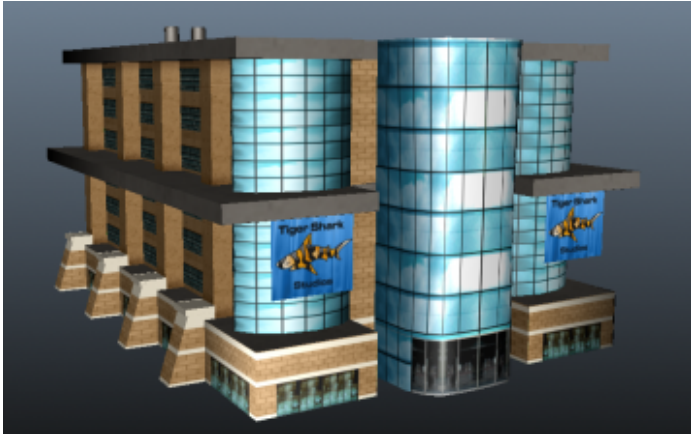

Some examples of the designs used in creating the Raptor and other themed car packs.

## **Another 1st and 2nd place.**

We are on the top again thanks to you all. The Beam Gun Turret and the Micro Towers are proving very popular.

Government / Office Building is the first in our new urban environment section and is available on our website.
